# Run your whole roofing company from one screen.

Leads, satellite measuring, estimates, e-signatures, permits, production and getting paid — laid out in the order you actually work a job.

1 Lead › 2 Measure › 3 Estimate › 4 Sign › 5 Permit › 6 Build › 7 Get paid › 8 Grow

## 01
## Leads & Customers

Every customer, every contact, one place.

- Customer records with homeowner, adjuster and extra contacts
- Flags a possible duplicate before you create it
- Full activity timeline on every job
- Search anything in the app instantly (Ctrl+K)

## 02
## Measure from Satellite

No ladder. No per-report fees.

- Trace the roof on satellite imagery — squares calculate themselves
- Ridge, hip, valley, eave, rake, drip edge, step and headwall flashing
- Pitch pulled from satellite, then confirmed by you
- Printable measurement sketch for the job file

## 03
## Estimates

Retail or insurance, built in minutes.

- Saved templates plus your own product catalog
- Insurance line items with RCV, ACV, depreciation and O&P
- Change orders tracked against the original contract
- Duplicate any estimate, or save it as a new template

## 04
## E-Signatures

Homeowner signs from their phone.

- Send one estimate, or a packet of options with job photos
- Typed or drawn signature — time, IP and device recorded
- Signed PDF saved to the job automatically
- Signed estimates lock, so nobody can change them after the fact

Continued on next page

## 05
## Permits

Less paperwork at the permit counter.

- Permit checklist pre-filled from the job's measurements
- Satellite guesses flagged until someone confirms them
- Upload a permit and AI reads the details for you
- Final permit check before a job can close out

## 06
## Production

Keep crews and materials moving.

- Calendar, appointments and tasks
- Work orders, plus material orders emailed straight to your supplier
- Job photos organized by project, shrunk automatically on upload
- Shareable photo gallery link for the homeowner

## 07
## Get Paid

Invoice today. Get paid today.

- Invoices built straight from the signed estimate and change orders
- Deposit requests, deducted automatically on the final invoice
- Homeowner pays online by card or bank transfer
- Every payment tracked — paid, partial or overdue

## 08
## Know Your Numbers

See what's actually making money.

- Reports: pipeline, close rate, sales by rep, job mix, money owed
- Job profit sheets with commission and custom deductions
- Snap a receipt — AI turns it into a job expense
- Reps see only their own jobs; owners see everything
